DETAILED ACTION

1. This Office Action incorporates Reasons For Allowance.

Response to Arguments

2. The Applicant's Request For Continued Examination filed 2/22/2008 has been entered and made of record.
3. The application has pending claim(s) 1-18.
4. Applicant's arguments, see page 7 [line 9] through page 9 [line 2], see page 9 [lines 16-20], see page 10 [lines 3-11], filed 2/22/2008, with respect to claim 1 have been fully considered and are persuasive.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

Independent claim 1 is allowable over the prior art of record. Claims 2-18 are dependent upon claim 1, therefore, are allowed.

Independent claim 1 recites the limitations of: assigning a binary value to each of the two zones; and if the point corresponding to the coordinates of the selected motion vector is in the zone of the portion to which it belongs, of binary value which corresponds to the bit of the marking key with which the selected motion vector is associated, not modifying the coordinates of the selected motion vector; if the point

corresponding to the coordinates of the selected motion vector is not in the zone of the portion to which it belongs, of binary value which corresponds to the bit of the marking key with which the selected motion vector is associated, modifying the coordinates of the selected motion vector so that the point is in the zone, of binary value which corresponds to the bit of the marking key with which the selected motion vector is associated.

The combination of these features as cited in the claims in combination with the other limitations of the claims, are neither disclosed nor suggested by the prior art of record.

The closest reference of Vynne et al (US 5,960,081) discloses embedding a digital signature into motion vectors of a video sequence. However, Vynne does not teach the limitations cited above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
